

15th Workshop on Automotive Software & Systems

Orbassano (TO) – 22 Febbraio 2018
Centro Ricerche FIAT, Sala Auditorium - via F. Coppi,1

PROGRAMMA

09:30 G. Lami (*CNR-ISTI*) – Welcome & Workshop Intro

09:45 J.Favaro (*Intecs*) - Automotive Hot Topics: The “IEEE Software” Special Issue on Automotive
CyberSecurity Session

10:00 G.Costantino, I.Matteucci (*CNR-IIT*) - CANDY: haCking infotAiNment anDroid sYstems

10:30 C.Senni, E.Bragaglia, W. Nesci (*Magneti Marelli*) - A Framework for Vehicle Penetration Tests

11:00 Question Time

11:30 **COFFEE BREAK & NETWORKING – Offerto dagli Sponsor**

Innovation & Emerging Trends (II) Session

12:00 M.Menegotto, C.Sax (*Lauterbach*) - Mind the Gap: Benefits and Pitfalls of Trace-Based Code Coverage for ASIL D

12:30 T. Fehlmann (*Euro Project Office*) - Autonomous Real-Time Software & Systems Testing

13:00 M.Violante (*Politecnico Torino*), N.Frisco (*TXT e-solutions*) - Testing in the Google car era, are we ready?

---- **14th Workshop Best Presentation Award** ----

13:30 **LUNCH BREAK – Offerto dagli Sponsor**

Standards in Practice Session

14:30 T.Ferrero (*Ethicomputing SPRL*), U.Schiara (*Bitron*) – Vehicle Information Security from an unusual perspective

15:00 P. Panaroni (*Intecs*) - Why Automotive SPICE?

15:30 Question Time

15:50 **COFFEE BREAK & NETWORKING – Offerto dagli Sponsor**

Innovation & Emerging Trends (II) Session

16:10 A. Farsaci (*IVECO*) – Building Cybersecurity on Plant - Impacts on Manufacturing processes

16:40 E. Leo (*Soluzioni Ingegneria*) - Collaborative automotive community for real time, open road friction identification and information sharing for mobile App ADAS.

17:10 Workshop closure
